## WEDDING CHECKLIST

We put together a helpful checklist to assist you in planning your big day and ensure no detail is overlooked.

Double-check that all of your pick-up, drop-off, & stop locations, as well as routes are **accessible to buses**.

For planning your itinerary, 15 minutes must be added to all estimated drive times from any directions app.

For each stop or shuttle trip you have, plan for passenger loading and unloading to take approximately 15 to 20 minutes each.

List potential photo locations on your reservation, so where ever your photographer decides to go, the driver will have those ready.

Check with the ceremony and reception venues on the best places to park the bus. "Reserved" markers can be helpful in some cases.

Have a day-of-the-wedding contact on your reservation in case the driver needs to get in contact with someone.

If you have passengers that are under 21, please notify us with their names, ages, and their relationship to the bride or groom.

It's helpful to have a designated attendant who can put coolers, snacks, and anything else you want on the bus before boarding.

Remember to bring cups, coolers, ice, or any other party items you may need. (Please, no styrofoam cups or styrofoam coolers.)

Please only bring coolers with widths no bigger than 16 inches and no taller than 14 inches to ensure they fit through entryways, etc.

Designate someone to manage the music while on the bus. Always a good idea to have a bride and groom approved playlist ready.

The stereo has Bluetooth & has an AUX cord for backup. If your phone requires an adaptor to use AUX, please bring it along.

Review our **Bus Rules and Safety Guidelines** to ensure a pleasant and safe trip.
